Creating Chat Bot for application

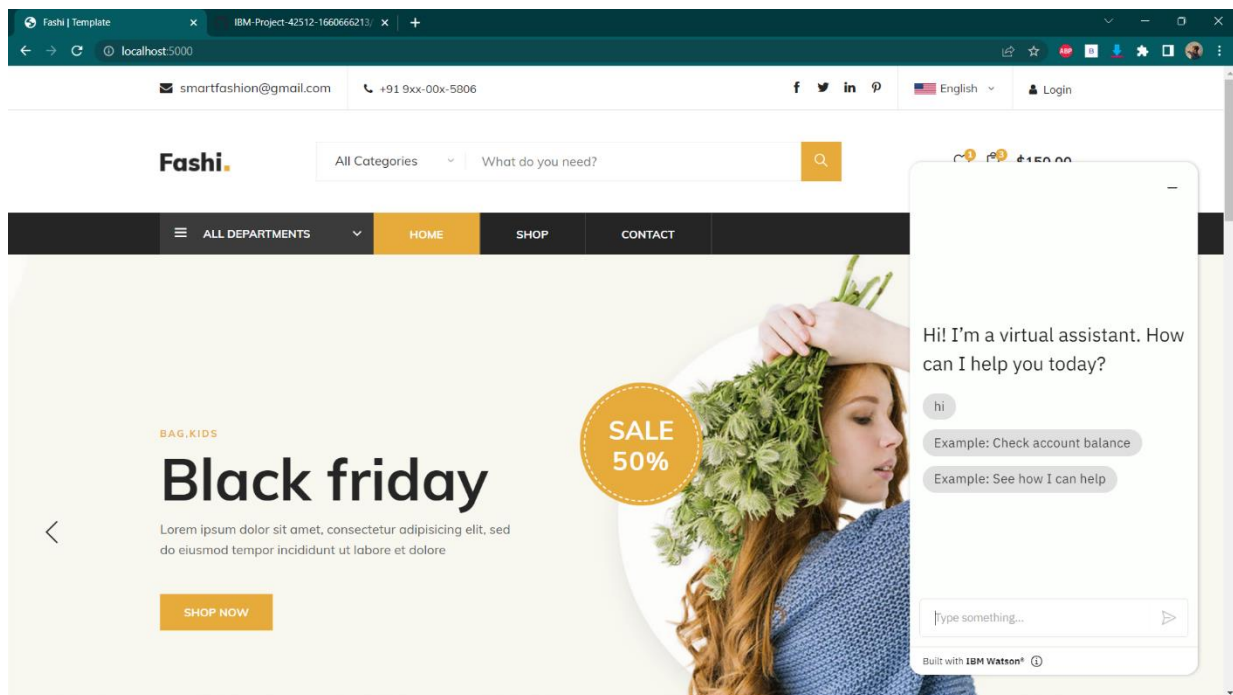

The screenshot shows the IBM Watson Assistant console interface. The top navigation bar includes 'Flash | Template', 'IBM-EPBL/IBM-Project-42512-16', 'IBM Watson Service Page', and 'IBM Watson Assistant'. The main content area is titled 'Actions' and displays a table of actions. The table has columns for 'Name', 'Last edited', 'Examples Count', and 'Status'. A single action named 'FashionRecommender' is listed, with 'Last edited' as 'a few seconds ago' and 'Examples Count' as '4'. The status is 'System is training..'. A 'New action' button is visible in the top right corner. The left sidebar shows navigation options: 'Actions', 'Variables', and 'Saved responses'. The bottom of the console shows 'Items per page: 50' and 'Showing 1-1 of 1 actions'.

| Name | Last edited | Examples Count | Status |
|--------------------|-------------------|----------------|----------------------|
| FashionRecommender | a few seconds ago | 4 | System is training.. |

Adding Features of Chat Bot

The screenshot shows the IBM Watson Assistant console interface in the 'Preview assistant' tab. The top navigation bar includes 'Flash | Template', 'IBM-EPBL/IBM-Project-42512-16', 'IBM Watson Service Page', and 'IBM Watson Assistant'. The main content area is titled 'Preview assistant' and displays a sample website layout. The website has a header 'Sample website' and a main content area with three columns of placeholder images. A chat window is overlaid on the right side of the website, showing a conversation with the 'Watson Assistant'. The chat window has a title bar 'Watson Assistant' and a close button. The conversation starts with a message from the user: 'Mens Casual Premium Slim Fit T-Shirts'. The assistant responds with: 'Great choice baby! select the size!'. Below the response are size options: '36', '38', '40', and '42'. The user selects '40'. The assistant responds with: 'Thanks for the response. Our customer executive shall contact you soon'. The chat window also shows a 'Type something...' input field and a 'Send' button. The bottom of the chat window shows 'Built with IBM Watson®'.

Integrate Chat Bot with Web site
